

A Moment of Awe

Good weather tonight (Saturday) and the moon is gorgeous. It is on it was to a full moon Sunday July 21, 2024 in the US at 3:17 AM (6:17 ET). It is the Buck Moon. This full moon holds spiritual significance in many traditions as it symbolizes growth, strength and transformation. Just as the buck grows new antlers, so can we grow in our relationship with ourselves, others, and nature.

Enjoy. Linda
