A Moment of Awe

The Harvest Moon rises low on the horizon October 17, 2024 so you may have to wait for the moon to be visible, weather permitting.

This moon is another Supermoon so it will appear larger and closer than other moons. It will also look full for three days so look up and enjoy this moment of awe. Spiritually, the Harvest full moon is an opportunity for change and to turn a new chapter.

So, look up and enjoy

Peace and Goodwill to all people,

Linda
